

## Parental Consent Form

---

Falk School's primary mission is to provide an excellent educational experience for its children. As a campus laboratory school, Falk School has other responsibilities to the larger institution, the University of Pittsburgh. Encouraging educational research, developing new educational techniques, disseminating information to the education community, and providing firsthand experience for University students are some of the goals of a campus laboratory school in a major urban university. As we work to fulfill these obligations, our children will periodically participate in activities that explore the learning process. They may occasionally have their picture taken for use in textbooks and other publications and sometimes have their images presented on television.

We need your permission:

- to use your child's picture in publication materials.
- to use your child's image on television.

This form will be placed in your child's record folder in the Falk School office. Thank you for your continued cooperation in helping Falk School to become one of the finest laboratory schools in the country.

Sincerely,

Wendell R. McConnaha  
Director, Falk Laboratory School

I give my consent to have my child's picture used in publication materials and to have his or her image presented on television.
