

Potential Parent Support of the Falk School Program

A small independent school has the opportunity to achieve excellence through immediate use of new ideas and resources because it is not limited by the inertia of a large system. Constant updating requires some extra personnel and unusual expense for equipment. Therefore, any independent school that attempts to stay in the educational forefront needs every type of supplementary support that can be obtained. This is especially true at Falk School, where an effort is made to keep tuition fairly modest while demonstrating a model program.

Kindly indicate below which type of support you may be able to offer. The Father/Guardian should check appropriate spaces in the first column and sign the form. The Mother/Guardian should check appropriate spaces in the second column and sign the form.

Falk School Admissions Committee

We have carefully studied the Falk School objectives and feel that we can support them. If we become affiliated with the school, we expect to demonstrate this support through the activities checked below.
